

WASHINGTON MAN WILL WED BELLE OF MARYLAND VILLAGE

Garnett Gilbert Loeffler to
Marry Miss Helen Eld-
ridge, of Kensington.

ROCKVILLE, Md., Oct. 12.—Invitations have been issued for the marriage in St. Paul's Methodist Church, at Kensington, next Thursday evening, of Miss Helen Eldridge, daughter of Mr. and Mrs. Watson W. Eldridge, of Kensington, and Garnett Gilbert Loeffler, of Washington.

Miss Katherine Morrissey, of Green-
ville, Miss., and John D. Wacker, of
New York city, were married a few
days ago at the home of the bride's
sister, Mrs. W. E. Orutt, near Pooler-
ville, this county, in the presence of
a few relatives and friends. They left
for New York, where they will make
their home.

The quarterly meeting of the Ortho-
dox Friends is in session at Ashton, this
county. It began last evening and will
continue through tomorrow. Last evening
William Dennis, of the State De-
partment at Washington, who was sent
to South Africa to represent his Gov-
ernment in the interest of peace and

arbitration, delivered an address on
"Peace and Arbitration."

The members of the Horticultural
Society of Sandy Spring, this county,
presented a solid silver vase to the
secretary of the society, Mrs. Elizabeth S.
Iddings, at a recent meeting. Upon the
vase was engraved, "In Appreciation of
Forty-four Years of Faithful Service."
The presentation speech was by Alban
G. Thomas.

A movement is on foot at Kensington,
this county, to raise funds with which
to purchase fire-fighting apparatus for
the town. At a recent meeting of citi-
zens, \$165 was subscribed, and it is
hoped to increase the amount to \$500.
Fire Marshal Nicholson, of Washington,
has promised to give his advice in re-
spect to the apparatus best suited to the
town.

The principals of the various high
schools of Montgomery county held a
meeting in the high school building
here yesterday, about twenty teachers
and others attending. Prof. Earle B.
Wood, county superintendent of schools,
was in charge. Interesting discussions
of high school work, participated in by
nearly all present, marked the session.

Boy Arrested in Act Of Stealing Bicycle

Thomas Brown, a fourteen-year-old
colored boy, living in Bladensburg, was
arrested by Policeman Elliott, of the
First precinct, yesterday in the act of
stealing a bicycle from in front of a
3 and 10-cent store in Seventh street.
At the station house the boy is said to
have admitted the theft of three bi-
cycles.

During the last few weeks a large
number of wheels have been taken from
in front of stores in Seventh street.
Policeman Elliott was detailed to look
for the thief.

niversary of the discovery of America
by Columbus will be conducted this
evening at Paul's Theater by District
Knights of Columbus, the program be-
ginning at 8:30 o'clock. Not since the
Columbus monument was unveiled at
the Union Station plaza last June have
so many members of the order been as-
sembled in one place as promise to at-
tend tonight's meeting.

Addressees by John Barrett, Commis-
sioner Cuno H. Rudolph, and the Rev.
Charles Warren Currier, with an open-
ing speech by the chairman of the even-
ing, Edward P. Harrington, State de-
puty of the Knights, constitute the
speaking portion of the program. Music

Edward Hall, and Edson B. Browne; by

MOISANT AVIATOR WILL TRY FLIGHT OVER WASHINGTON

If Successful, It Will Be First
Time Monoplane Has
Sailed Over City.

Harold Kantner, the Moisant aviator
at College Park, expects to attempt a
flight over Washington one day this
week. If he is successful, it will be the
first time in the history of the city that
a monoplane has sailed over it. Paul
Beck, who was killed three weeks ago,
had planned to fly over the Capital in
his Columbia monoplane.

The Moisant monoplane made three
pretty flights at College Park yesterday
afternoon, two by Kantner and one by
Miss Bernette A. Miller. More than
three hundred persons witnessed the
flights.
There were no flights by the army
aviators at College Park, but Lieut.
Harold Geiger made two spins over the
Potomac river at the War College in his
Curtiss "flying boat." On one trip he
new down to Alexandria. On the second
trip he went almost as far, carry-
ing with him as his passenger, Capt.
Charles DeForest Chandler.
A heavy north wind up the Ches-
apeake Beach prevented Lieut. Theodore
G. Elyson, of the naval flying squad-
ron at Annapolis, from attempting a
flight to Washington yesterday.

AEROPLANE TESTS IN ARTILLERY FIRE

Maneuvers at Fort Riley to In-
clude Experiments With
Aircraft.

Aeroplanes will be used experimentally
at Fort Riley, Kan., during the latter
part of October for determining, in
connection with the employment of ar-
tillery, the position of the hypothetical
enemy and the effect of the fire. Capt.
F. E. Mennessy, Second Lieut. H. H.
Arnold, and Second Lieut. Thomas
DeW. Milling have been detailed for
temporary duty at Fort Riley.

The experiments will call not only
for careful observation, but for experi-
ments with different methods of sig-
naling. After the enemy has been lo-
cated the scout aeroplane will be un-
der the necessity of getting the infor-
mation to the field artillery. Several
methods of signaling will be experi-
mented with, wireless included. These
signals will be required also in re-
sponse to the land forces the effect
of the fire.
The general effect of artillery fire
may be indicated by the direction of the
aeroplanes, the machine swerving to the
right to indicate to the artillerymen
that they are firing too far to the left
or vice versa. This method has been
tried in France, but is open to the ob-
jection that an aeroplane may be re-
quired to shift its course for reasons
not within the control of the aviator.
It is not expected that bomb-throwing
or shell-firing devices, attachable to
aeroplanes, will be tried during the ex-
perimental work at Fort Riley.
